Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

5 minutes

Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

> **PROBLEM**
> How might we provide child safety monitoring and notification system using IOT?

Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

Brainstorm

Write down any ideas that come to mind for child safety monitoring system

10 minutes

TIP
You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

KARTHI D

- Create a mobile application
- Sends the exact location of child in case of emergency
- Measures temperature, pulse rate, heart beat rate of child and notify during emergency
- Continuous tracking and updating child's location
- Water & sweat Proof
- Alerts if the given range is exceeded

KALIDASAN S

- Create web Application
- Brilliant UI/UX design for Application
- Creating Geo Fence
- Integration with Parent's mobile
- Integration with Cloud Services
- Comfortable & easily wearable

KARTHIK RAJA S

- Create Mobile application
- GPS integrated watch to keep track of their child's movements
- Use the Child locator gadget
- Geofencing the child's movement
- Accurate sensors to detect Temperature, Heart rate.
- Low levels of radiation

LOGESHWARAN D

- Parental control features
- Use satellite calling in case of emergency
- Intimating the child's location through GPS
- User friendly application
- Better battery life
- Secure database

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as them in the loop about the outcomes of the session.

Tracking Location

- GPS integrated watch to keep track of their child's movements
- Sends the exact location of child in case of emergency
- Alerts if the given range is exceeded
- Use satellite calling in case of emergency

UI

- Create a mobile application
- Brilliant UI/UX design for Application
- User friendly application

Physical Features

- Low levels of radiation
- Better battery life
- Comfortable & easily wearable
- Water & sweat Proof

Database

- Secure database
- Integration with Cloud Services
- Geofencing the child's movement
- Measures temperature, pulse rate, heart beat rate of child and notify during emergency

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance
If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

- Parental control features
- GPS integrated watch to keep track of their child's movements
- Create a mobile application
- Alerts if the given range is exceeded
- Creating Geo Fence
- Continuous tracking and updating child's location
- Integration with Parent's mobile
- Use satellite calling in case of emergency
- Better battery life
- Water & sweat Proof
- Secure database
- Accurate sensors to detect Temperature, Heart rate.
- Measures temperature, pulse rate, heart beat rate of child during emergency
- Brilliant UI/UX design for Application
- Low levels of radiation
- Comfortable & easily wearable

TIP
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the H key on the keyboard.

Feasibility
Regardless of their importance, which tasks are more

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint
Define the components of a new idea or strategy.
